

FRSK-HT RETROFIT SHIELDING KIT

2x2, 2x4 Recessed Direct / Indirect

ELEGANT DESIGN

The FRSK-HT provides the look and feel of a deep luminaire — subtle soft indirect elements, interest and depth across the ceiling plane — with a kit that consumes minimal space and material.

EFFICIENT SOLUTION

The contoured panels of the unit are high transmission acrylic that provide a low-brightness glow, with the majority of the light controlled through the center optical element.

APPLICATION

For use with most recessed lay-in fixtures in standard 15/16" grid ceiling systems.
