

FRSK-OA RETROFIT SHIELDING KIT

2x2, 2x4 Recessed Direct / Indirect

ELEGANT DESIGN

The FRSK-OA integrates a white aluminum baffle into the FRSK family. The sloping acrylic side panels and unique lamp placement maintains the look and feel of a deep luminaire — subtle soft indirect elements, interest and depth across the ceiling plane — with a kit that consumes minimal space and material.

EFFICIENT SOLUTION

The contoured panels of the unit are high transmission acrylic that provide a low-brightness glow, while the center rails and high reflectance white baffle blades control the primary beam.

APPLICATION

For use with most recessed lay-in fixtures in standard 15/16" grid ceiling systems.

Recessed Direct / Indirect

SPECIFICATIONS

Door Frame

Features positive latching mechanism for easy re-lamping.

Direct Optical Component

High reflectance optical engine delivers main beam focus through the bright white parabolic baffle. With 90% reflectance and parabolic shape, the result is an ideal balance between brightness control and efficiency.

Diffuser Surround

(2) Sloping high transmission acrylic diffuser panels manage contrast and generate soft, even, higher angle luminance.

Reflector

Multi-radii high reflectance white reflector distributes light through both optical elements.

Luminaire Type

Fits most standard lay-in lensed or parabolic housings 2X2' and 2X4'.

Lamps

1- or 2-lamp T8 or T5 fluorescent wiring kits available.
